

# The Old Graveyard

## Graveyard Lists:

There are two lists, one of the old cemetery, to the west and south of the church, and one of the new cemetery, to the north. For each lair, we give a grave number which is shown on the map, and the names of those interred along with, where it is known, their date of death. The full details of each gravestone are available on the AHHA website.

# MAP OF NEW GRAVEYARD

## **New Graveyard:**

*Please refer to the sketch map for locations of graves.*

This record is compiled both from a survey on site and Highland Council's records. Unfortunately, in places the Council's records do not match what is found in the graveyard. In this list, italics indicate that the record is entirely from Highland Council's data. In the case of lairs 23 and 24, we cannot find evidence that they ever existed.
