Detailed description, further notes, observations – continued on next page

Two shieling huts found on a SE facing slope in an area closely cropped by sheep. Evidence of old field walls in the area, possibly enclosing land once worked for arable.

Hut 1: **NM 55976 63035** 3.5m diameter. Clearly a circle of stones to about 40cm height.

Hut 2: **NM 56010 63060** 3.5m diameter This is not so clearly a shieling hut, more a cairn of stones, but it stands on a small platform and is most likely to have been a hut.
